least 300 feet from surface water and down hill or down slope of any drinking water sources, unless otherwise authorized.

- 2. To reduce the risk of illness and discourage wildlife access to garbage, it will be removed from the site daily in accordance with State sanitation requirements.
- 3. Food shall be stored in such a manner as to discourage wildlife access and protect the health and safety of participants.
- 4. Biological hazards and waste generated within the permit area will be stored in secure containers and disposed of at an appropriate medical waste disposal facility. No biological hazards or waste may remain on the site upon expiration of the permit.
- 5. All roads will be kept clear of vehicles and other obstructions.
- 6. Drinking water should be filtered and treated. Complete water testing for total coliform and fecal and e.coli may be performed by the County Health Department.
- 7. To prevent widespread illness, access points to drinking water will be signed and protected from upstream contamination.
  - Vehicle parking will be limited to authorized parking areas as identified on Exhibit B. No off-road motorized travel is permitted within the designated camping only area as shown on Exhibit B. At no time shall pedestrian traffic block the roadway for vehicle traffic.
- 9. To protect riparian vegetation and prevent compaction around water sources, no camping shall occur within 150 feet of surface water.

   cxcept as specifically authorized by
- 10. There will be no excavating or digging in or around drinking water sources. Use temporary surface collection techniques (such as rocks, logs, or tarps) to collect drinking water at the source.
- 11. Sensitive areas (archaeological sites, wetlands, habitat for sensitive species, etc) will be marked by the Forest Service and identified as closely as possible on information at the holder's information area. The holder is responsible that participants and do not camp or congregate on, remove any potentially historic or pre-historic items or features from, these areas (i.e., plants, old bottles, rusty cans, obsidian flakes or grinding rocks).
- 12. Kitchens will be located a minimum of 300 feet from surface water and will not be located within areas that contain riparian vegetation.
