Subject Fw: Rainbows near Girl Scout camp

I want to make sure that we haven't left the Chaparral Girl Scout camp near Cuba out of our communications. Sandy Kohne is the camp director, her e-mail is skohne@gs-nmtrails.org and phone number is 505-289-3720. We have put her on our large mailing list. I'll give her a call now and let her know that she will get updates on how things progress....karen

Subject Rainbows near Girl Scout camp

Jess/Karen,

As requested-above is Sandy Kohne's email. She is the Camp Director at Rancho del Chaparral. The phone up there is 575-289-3720. She mentioned their bunkhouse could possibly be a staging area for about 8-10 law enforcement or other FS people, if needed.

The camp has concerns about the safety of their female campers and the back/remote area of their camp, the Ojitos area, where their girls do overnight campouts/backpacking trips.

Both she and the camp ranger-Ed, have been seeing the Rainbows on a daily basis and have stopped to talk with them. The Rainbows mentioned having the Girl Scouts come out to their group and teach the "newbies" how to safely build a campfire (hmmmm). Don't know if that's gonna' happen.

Sandy-

Jess and Karen will see to it that you're put on the email update list. I'm really not involved in this, but because of our connection-I want to you be informed-of course! So hopefully these updates will help.
