Subject Rainbow Family Near YOU

Linda, I've been monitoring the Rainbow family websites and saw this on San Antonio Hot Springs. I just wanted to give you a heads up that your district may be (very likely) visited by Rainbows. In some of our discussions there is a major distrust of Gov't made warning signs--in this case of the Naegleria Fowleri amoeba. In the Rainbow site (below), you'll read that the hot springs are wonderful, you can even drink the water... You may want to post a hand-written sign at the springs and let your staff know... We're (PIO group) planning our community contacts regarding Rainbow gathering and will include Jemez Springs and Walatowa Visitor Center. Please let me and Lawrence know what your needs may be.

<http://welcomehere.org/forum.php>

Francisco: Same for you regarding community contacts. Please let me and Lawrence know what your needs may be.
