***SAFETY & HEALTH***  
***2010 RAINBOW FAMILY GATHERING***  
***June 24, 2010***  
***Allegheny National Forest***

Keep up the safe driving, clean windshields, limit speed to the road conditions & situation. Always lookout for the other drivers and be prepared for the unexpected. Be cognizant of the increased dust on the unpaved roads and foggy conditions in the early morning hours. Drive with your lights on. Wear your safety belts. Keep up on your vehicle maintenance. Watch out for animals and people.

Ensure you hydrate often due to the increased temperatures and humidity levels. Take breaks to cool down often and ensure you stop and nourish yourself.

Use good Officer Safety and Officer Survival Skills, remember weapons retention when out of your vehicle.

Use gloves & germ killing skin gel. Watch out for sharp objects & needles. Properly dispose of all biohazard items in red biohazards bags or sharps containers.

Arrest and transport by Forest Service policy. After transport, spray and clean your patrol vehicle with Lysol or decontamination wipes.

Communicate plans with your partner, and other L.E. units in the area. Officer Safety comes first.

Support and assist other L.E. agencies as needed, such as Vehicle Stops, etc.

Beware of all dogs. Look where you walk. Parvo virus is contagious. Decontaminate your field boots as needed.

L.E. units try to assist resource people when in the area. Provide cover for them as needed. Have them check in and out with you if they are walking in the area.

Resource Personnel: Must be in radio contact, check in and out. Communicate with LEO's. Always and only work in pairs. Always be aware of your surroundings, leave if you feel unsafe or unsure. Have an on going escape route.

Please follow all safety procedures  
&  
Have a good shift

June 20, 2010

**RAINBOW GATHERING EVENT**  
**SCENE VISITATION GUIDELINES FOR NON-LAW ENFORCEMENT INCIDENT WORKERS**  
6/17/2010

GOAL: Provide for safe, coordinated visits by non-law enforcement incident workers. Provide communications and a check-in and out process for non-law enforcement workers so they can be tracked and located in a timely and effective manner.

**RECOMMENDED PROCEDURES:**

Check in at the ICP (Incident Command Post). On your first visit you will be provided a Health and Safety briefing and/or a written copy of recommended site visitation protocol. If needed, you will also be assigned a portable radio. Information about radio use or special instructions for scene visits for the day will also be provided as needed.

ALL VISITORS WILL BE PAIRED UP, AND NO ONE IS ALLOWED TO VISIT THE SITE ALONE. EMPLOYEES SHOULD BE IN UNIFORM OR IDENTIFIABLE AS FOREST SERVICE EMPLOYEES.

Monitor radio traffic when driving to the gathering site.

When you arrive at the gathering contact the law enforcement Division Supervisor in charge. The Division Supervisor will provide you with site specific and situational instructions. Tell the Division Supervisor the purpose and expected duration of your visit. Vehicles should be parked in a secure and visible location. If you are unsure of where to park, ask for assistance from law enforcement. Always lock your vehicle and secure property.

When you are at the site and are out of your vehicle, contact Division Supervisor and advise them how long you expect to be out on foot. Make radio contact with Division Supervisor at a minimum of every 60-minutes; more frequently if you feel the need to shorten that interval. At check-ins advise the Division Supervisor of your approximate location. Use common sense when making radio calls or monitoring radio traffic especially in large groups of gathering participants.

Advise the Division Supervisor of any changes in the expected duration of your visit.

Advise the Division Supervisor when you return to your vehicle and relay that you are returning to ICP (or the location where you are departing to).

If applicable, check your assigned radio back into the ICP.

BE AWARE THAT TRAFFIC CONGESTION WILL OFTEN PRESENT A MAJOR PROBLEM PROCEEDING INTO AND OUT OF THE EVENT AREA.

BE ESPECIALLY ALERT IF A SITUATION BEGINS TO DEVELOP THAT MIGHT RESULT IN THE NEED FOR AN EVACUATION

INCIDENT RADIO COMMUNICATIONS PLAN			1. Incident Name 2010 RAINBOW		2. Date/Time Prepared 6/25/10		3. Operational Period Date/Time June 26, 2010 until amended
